Handout 1: The board labeled both ways

REMUS

Call the square. Day 1, period 3. Team name: _____

The usual chess labels run along the bottom (files `a` to `h`) and the left side (ranks `1` to `8`). Remus's own numbers run along the top (columns 0 to 7) and the right side (rows 0 to 7). The square `e2` is marked.

When the teacher calls a `(row, col)` pair, the navigator puts the token on that square and the driver names it. When the teacher calls a square name, the navigator puts the token on it and the driver gives the `(row, col)` pair. Write each answer here.
