Handout 4: Pin hunt

Pin hunt. Day 4, period 3. Team name: _____

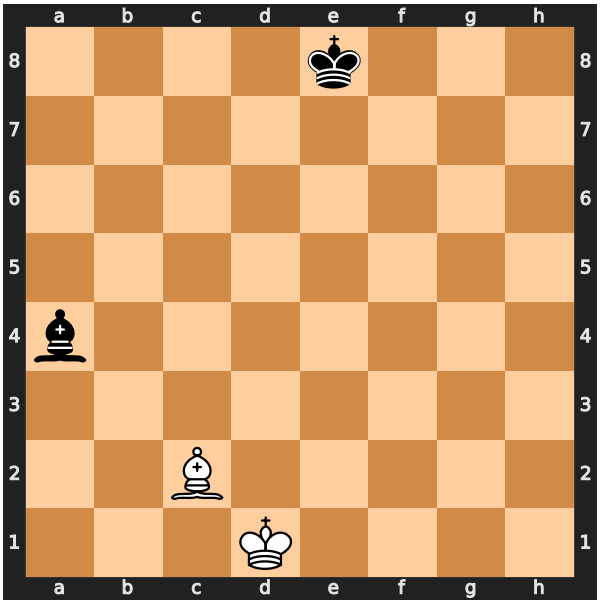

White moves in every position. Under each board is the list of moves that the Day 3 move generator offers the piece named. Some of those moves leave White's own king attacked, so the rules of chess forbid them. Cross out every move that is illegal, and leave the legal ones.

Position 1. The knight on e2.

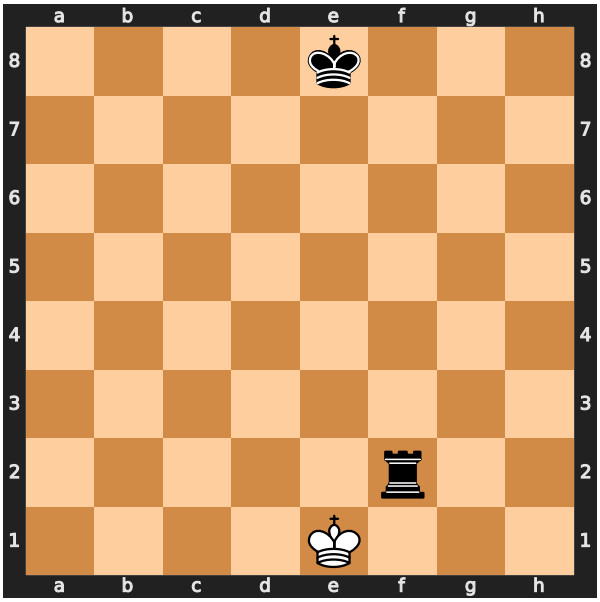

Moves offered: Nc1, Nc3, Nd4, Nf4, Ng1, Ng3

Position 2. The bishop on c2.

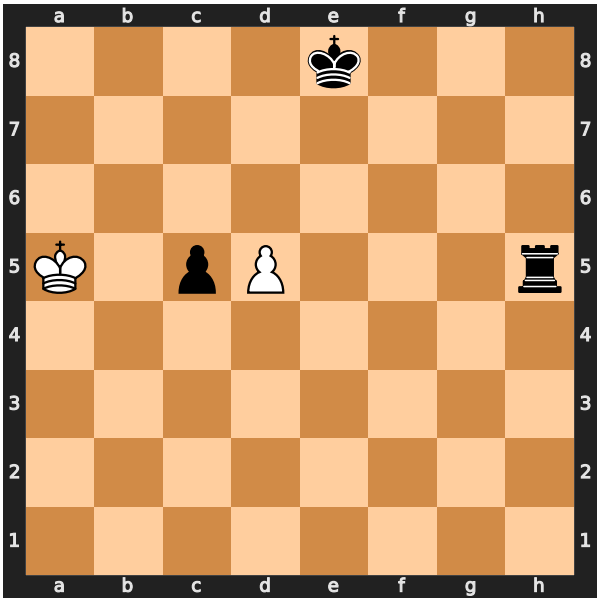

Moves offered: Bb1, Bb3, Bd3, Be4, Bf5, Bg6, Bh7, Bxa4

Position 3. The king on e1.

Moves offered: Kd1, Kd2, Ke2, Kf1, Kxf2

Position 4. The king on a5 and the pawn on d5. Black has just played the pawn from c7 to c5, so the pawn on d5 may capture it en passant, landing on c6.

Moves offered: Ka4, Ka6, Kb4, Kb5, Kb6, d6, dxc6 (en passant)

Which single question, asked after each move is made, settles all four positions?
